

JOHN DUSSOLD

Web Developer

SKILLS

FRONT END DEVELOPMENT

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, Python
- **Libraries / Frameworks:** React, Redux, Angular, Material, Bootstrap, SASS/SCSS, jQuery
- **Web Technologies:** Ajax, JSON
- **Version Control:** Git
- **Testing Methodologies:** Test-Driven Development (TDD), Behavior-Driven Development (BDD), unit testing, integration testing, acceptance testing, end-to-end testing
- **Continuous Integration / Delivery (CI/CD)**
- **Programming Paradigms:** Functional Programming, Object-Oriented Programming
- **Mobile App Development:** React Native, Expo, Progressive Web Apps (PWA)

BACK END DEVELOPMENT

- **Backend Technologies:** Node.js, Express
- **API Proficiency:** JSON, RESTful APIs, Postman
- **Hosting & Web Services:** AWS, Google Firestore, Heroku, Netlify
- **Database Management:** Relational (PostgreSQL, MySQL) & Non-relational (MongoDB) databases

EDUCATION

- 2022-2023
FULL-STACK WEB DEVELOPMENT
CareerFoundry
- 1999-2003
BACHELOR OF FINE ARTS
Missouri State University, Springfield MO.

SUMMARY

Web developer with a rich history in eDiscovery leadership. Skilled in automating workflows, clarifying intricate data issues, and creating visually captivating digital platforms. Harnesses an analytical approach combined with a keen design sense to craft responsive digital experiences.

WEB DEVELOPMENT PROJECTS

- 2023

CareerFoundry
MYFLIX - PERSONAL PROJECT

 - Created an Angular client application that effectively interfaces with the MyFlix API. This application serves as a user-friendly platform for accessing a comprehensive range of movie data.
 - Designed and implemented essential components such as registration and login forms, enhancing user experience and facilitating efficient user authentication. These components ensure a seamless onboarding process.
 - Utilized Angular services to effectively manage API communication, ensuring smooth registration, login, and data retrieval processes. Additionally, shared services streamlined functionality across components, offering a cohesive and user-friendly experience.
- 2023

CareerFoundry
RECIPES APP - PERSONAL PROJECT

 - Crafted a sophisticated Recipe Management application that allows users to seamlessly create, modify, and explore diverse recipes.
 - Engineered crucial interaction components, including recipe browsing, detailed recipe views, and user recipe submissions. By implementing these elements, the app ensures a user-friendly experience, making recipe management and exploration effortless.
 - Leveraged Django and SQL databases to optimize data handling. Through efficient data models and integration, the app facilitates smooth recipe submissions, search functionalities, and data visualization options, creating a cohesive and streamlined platform for users.

WORK EXPERIENCE

- 2023-

KLDiscovery
PROJECT MANAGER

 - Successfully manage multiple eDiscovery projects, meeting and exceeding client expectations.
 - Serve as a liaison between internal teams and clients, ensuring effective communication and project-specific reporting.
 - Demonstrate adaptability and leadership within a diverse team under pressure.

WORK EXPERIENCE CONTINUED

2017 - | KLDiscovery
2023 | **EVIDENCE MANAGER**

- Led a nationwide team of electronic evidence experts, driving initiatives to enhance efficiency and customer satisfaction.
- Communicated updates to the global company through web conferences and presentations.
- Provided expert consultation in resolving complex technical issues to ensure exceptional client experience.
- Fostered cross-functional collaboration across departments, increasing organizational capacity.
- Trained and coached employees to optimize performance and reduce process bottlenecks.

2015 - | KLDiscovery
2017 | **PROJECT LEADS MANAGER**

- Managed a team responsible for the accurate and timely completion of customer deliverables.
- Evaluated employee strengths to delegate tasks effectively, addressing processing gaps.
- Collaborated to implement solutions improving accuracy and efficiency.
- Contributed to company success through strategic hiring, training, and performance management.

2013 - | KLDiscovery
2015 | **DISCOVERY SERVICES CONSULTANT**

- Provided strategic consulting and support, implementing tailored solutions using predictive coding technology.
- Collaborated with clients and internal partners to meet client needs.
- Offered technical support for proprietary applications, internally and externally.
- Authored best practices documentation for new personnel onboarding.
- Strengthened operational controls through organized system procedures.

2012 - | KLDiscovery
2013 | **APPLICATION SUPPORT ANALYST**

- Delivered comprehensive technical support for various applications, optimizing client use.
- Ensured seamless installation, configuration, access, and troubleshooting.
- Advised project managers on tactical application usage.

2008 - | KLDiscovery
2012 | **OPERATIONS PROJECT MANAGER**

- Coordinated project progress to meet client expectations through effective communication.
- Served as a primary point of contact between project managers and operations teams.
- Developed and implemented solutions to streamline challenging data processing.
